

MEETING MINUTES

Run By: Futureense
Title: Internship Day 10

Date: 07 May, 2024
Time: 11:30 am
Location: Jain FET – 102
Facilitator: Mr. Akash Das
By: Mohd Zaid
GitHub: Mohd Zaid

Objective:

- Enhance proficiency in MySQL database management by integrating comprehensive exercises on aggregate functions, grouping, filtering, analyzing data, and join functions, fostering a deeper understanding of database manipulation techniques. Additionally, ensure the completion of discussion topics 9 and 50 to enrich the understanding of relevant concepts and applications.

Agenda:

- Explore and practice using aggregate functions effectively.
- Engage in a comprehensive exercise focusing on grouping, filtering, and analyzing data within MySQL.
- Utilize aggregate functions within the HR database in MySQL Workbench.
- Discuss the functionality and implementation of join functions.
- Completion of Discussion 9 and 50

Key takeaways:

- Strengthened proficiency in MySQL database management through hands-on experience with aggregate functions.
- Developed a comprehensive understanding of data manipulation techniques including grouping, filtering, and analysis within MySQL.
- Applied aggregate functions effectively within the HR database in MySQL Workbench, refining practical skills.
- Explored and discussed the functionality and implementation of join functions, deepening comprehension of database operations.
- Completed discussions on topics 9 and 50, enhancing understanding of relevant concepts and their applications in MySQL database management.
